# Azure Tables Storage Fundamentals 101

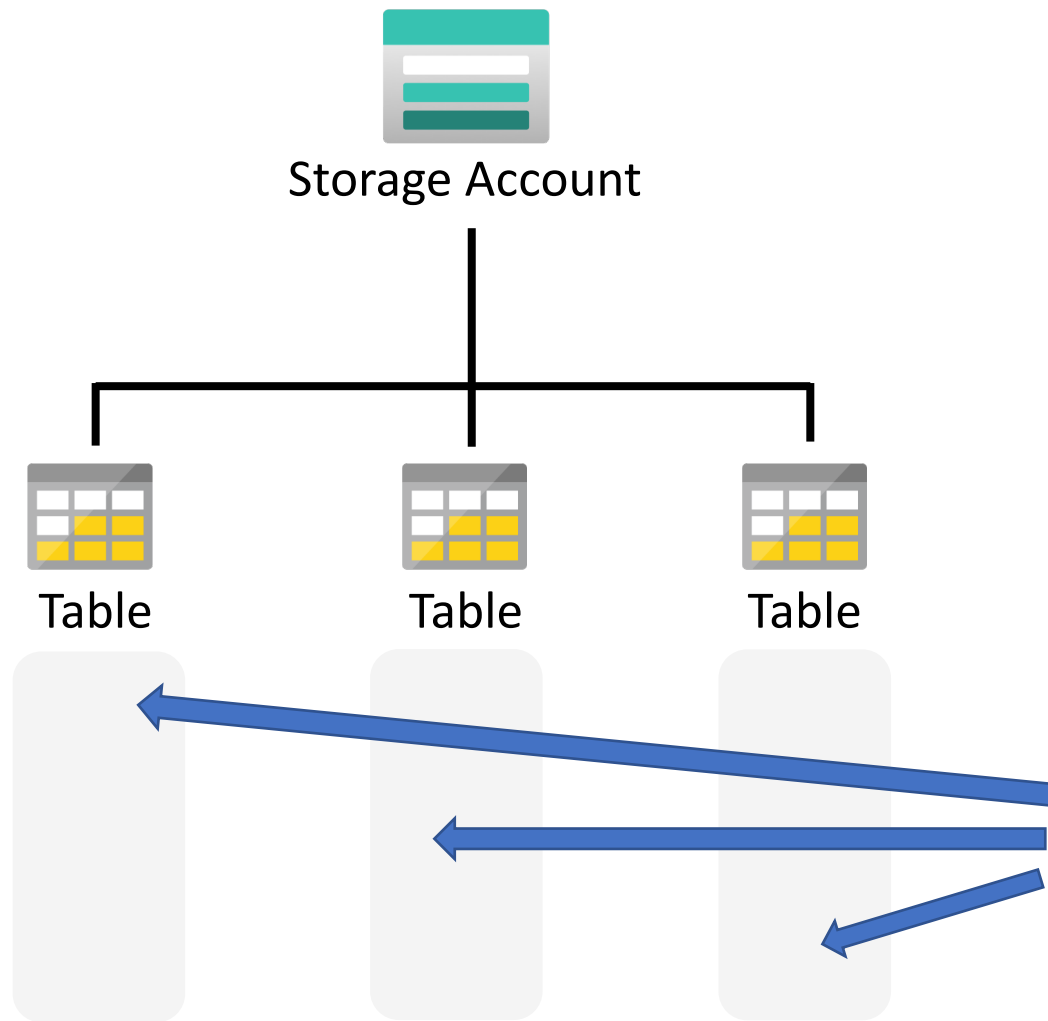

# Azure Tables – NoSQL Structured Data

- ❑ Highly scalable and very cheap Azure Storage service; NoSQL database for everyday needs and serverless apps
- ❑ Azure Table Storage is a service that stores structured NoSQL data in the cloud, providing a key/attribute store with a schemaless design
- ❑ Key/attribute <-> Tags (name/value)
- ❑ Schemaless - database doesn't have fixed data structure

Azure Tables

# Azure Tables Storage Overview
